Certificate of Origin

GELATIN and HYDROLYSATES TYPE A - PORCINE

Custom Collagen Type A Porcine Gelatins and Hydrolysates are produced in our Addison, IL (U.S.A.) plant exclusively from pig collagen. The list of countries at this time consists of USA, Canada, Germany, France, China and Brazil. Your custom made product may be made from various blends of material from these countries.

All of the materials from which the gelatin is extracted are from animals that have received documented veterinary inspections and were deemed healthy and fit for human consumption.

Without this documentation, the regulatory agencies will not allow the gelatin to enter our plant since it is subject to the inspection and approval of both the F.D.A. and the U.S.D.A.
